

Rami Hachem

Tel: +961 76 39 20 21 | ramihachem20@outlook.com | [LinkedIn](#) | [GitHub](#) | Beirut, Lebanon

EDUCATION

Lebanese American University, *Bachelor in Computer Science*

Sep 2023 – May 2026

- GPA: 3.2/4.0 [Scholarships, Distinction List, Honors List, LAU CS Club Member]

PROFESSIONAL EXPERIENCE

Founder and Full Stack developer at CovaTech, *Full Stack Development Agency*, [CovaTech.dev](#)

Jan 2026 – Present

- Ocar : Building a multi-vendor car rental and sales marketplace with complete frontend, backend, and database integration.
- Rayan Car ag : Building a full stack multi vendor platform for car buying and selling with seamless frontend, backend, and database integration.

CMA CGM, CMA BEIRUT TERMINAL, *Intern Full Stack Developer*

Jun 2025 – Oct 2025

- Designed and developed a Claim Management Portal with secure role-based access for multiple departments.
- Built responsive front-end interfaces using HTML, CSS, and JavaScript, ensuring cross-device usability.
- Developed and maintained RESTful APIs using Node.js and Express to handle claim submissions and tracking.
- Designed and optimized SQL database schemas in SSMS for efficient data storage and retrieval.
- Implemented bcrypt-based authentication to secure user credentials and protect sensitive claim data.
- Automated internal workflows to improve claim processing speed and operational efficiency.

DeliSpeed Delivery, *Intern Full Stack Developer*

Jan 2023 – Jan 2024

- Built a responsive website using React (frontend) and Node.js/Express (backend).
- Imported and converted raw CSV files into a relational SQL database, automating data validation and organization for faster queries. Entered, validated, and maintained large datasets of orders, delivery times, and user information.

PROJECTS

Personal Portfolio, [ramihachem.com](#)

Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Lenis, Radix UI, Canvas API

- Built ramihachem.com, a multilingual developer portfolio featuring smooth animations, interactive elements, responsive design, and modern UI/UX experiences.

CovaTech, [CovaTech.dev](#)

HTML, CSS, JavaScript, GSAP, ScrollTrigger, Lenis, D3.js, Canvas API, EmailJS

- Built CovaTech, a responsive technology agency website showcasing web development, mobile apps, UI/UX, and AI solutions with smooth scroll animations, an interactive canvas globe, contact form integration, and modern visual effects.

Ocar, [Ocar.ch](#)

React, Vite, Tailwind CSS, Node, Express, PostgreSQL, JWT, Google OAuth, and Three.js.

- A full-stack car rental marketplace, with features for car booking, partner dashboards, authentication, and admin management.

Door2Go Multi-Vendor Delivery Platform

React, Tailwind, JavaScript, Node.js, Express.js, SQL

- Full-stack delivery platform with vendor, customer, and order management

Sportify Sport Store

TypeScript, HTML, JavaScript, CSS

- Built a full-stack sports e-commerce web app with authentication, cart, and checkout features using HTML, JavaScript, and backend APIs.

Claim Management Portal For CMA CGM

HTML, CSS, JavaScript, Node.js, Express.js, SQL

- Role-based internal claims tracking system with secure authentication.

LAU Walking Guideline

Java, Graphs, Dijkstra's algorithm

- Campus navigation system using graph theory and shortest-path algorithms. Modeled real campus locations.

SKILLS

Certificates: Courses of Advanced python, Delf B2 junior.

Languages: Arabic (native), English (fluent), French (fluent).

Database: PostgreSQL, SQL, Authentication (bcrypt), MongoDB.

Skills: Git, Github, Claude Code, AWS, Jira, Trello, XML, Firebase, Deployment, GSAP, Anime.js, Three.js, ScrollTrigger.

Coding Languages: Python, Java, JavaScript, TypeScript, C.

Frontend: HTML, CSS, React.js, Tailwind CSS.

Backend: Node.js, Express.js, RESTful API, JWT
